

Environmental politics

SK LABEL s.r.o. considers a healthy living environment to be a necessary condition for further sustainable development of the world population and understands its role in its impact as well as co-responsibility for its condition. From this reason it declares that it is determined that all its activities connected with satisfying their customers and their own needs are accomplished in an environmentally friendly way, with the goal not only minimize negative aspects of its activities as well as avoiding negative impact – and all this in a way by constantly raising environment care standards.

To reach this goal we are obliged:

- > to keep valid legislature as well as its own regulations in the environmental field
- > to identify and lead fields in which society burdens the environment by its activities
- > to identify and minimize possible ecological risks
- > consistently create and develop awareness of employees about the impact of their activities on the environment and their direct responsibility for its condition
- > to implement and develop internal processes of managing the environment
- > to impose a fundamental emphasis on prevention
- > to use sources as well as technologies which are environmentally friendly
- > to offer ecological solutions to their customers
- > to search, implement and offer recycling possibilities and ecological evaluation of waste originated from the company's production
- > to support enlightenment in the environmental field, to impact environmental awareness of its own employees as well as business partners, to influence their personal approach
- > to impose emphasis on minimizing the amount of its own waste production
- > to present itself as a company whose highest priority is the maximum possible quality of delivered products and services going hand in hand with the maximum possible protection of the environment
- > to build up an effective internal system of environment management according to the requirements of norm CSN EN ISO 14001
- > to successfully certify this system
